SHUPRIOTI INNOVATIONS INC.

Information Technology Solutions, Recording Studio & Production House in Canada

Shuprioti Innovations Inc.
IT Solutions, Recording Studio & Production House

INTRODUCTION

Shuprioti Innovations Inc. is one of the leading Information Technology integration and Software Development firm as well as Digital Recording Studio & Media Production House in North America. It started its operations in 2005 and has more than 1000 clients who got its various versatile reliable and efficient services in information technology related projects together with numerous recording and production related projects.

SHUPRIOTI INNOVATIONS INC.

Shuprioti Innovations Inc. is Canadian based leading Information Technology integration and Software Development firm with Digital Recording Studio facility & Media Production House in North America.

Shuprioti Innovations is a full-service IT Solutions, digital recording studio, film making, and media production house located in Mississauga of Ontario, Canada. We provide efficient robust IT Solutions and consultation, custom-based Software & Web application development, creative, strategic and effective media and marketing solutions for our clients. Each client receives a high level of service and creative end-result from our team members that elevates your businesses products and/or services above your competition.

We have the experience, the knowledge, and the technology. You'll find professionals at "Shuprioti" who understand your technological needs, may be even before you do. You don't have to change the way you do business for computerization, we, the professionals at "Shuprioti Innovations" can help you create custom-designed solution that works the way you do. Our professionals provide high-end consultation for your business and office automation needs.

We have worked with many clients in various industries. The diversity in our clientele is limitless. We believe that the best way to see our capabilities is through our work. With our complete network of IT professionals, client-server & web application developers, creative writers, producers, directors, editors, DP, cinematographers, sound & recording engineers, photographers, and set of graphics & concept designers, we focus on efficient robust IT solutions, dramatic cinematic productions, TV serials, teleplays, music CD & videos, documentaries, short films, independent & experimental films, as well as commercials, infomercials, corporate videos, and multimedia presentations.

We, the professional at Shuprioti Innovations Inc. in association with Deshi Television Inc., ensure all components of the solution we developed and created are working together to deliver the most optimal results. From the initial concept design to completion of the project, we thoroughly check to make sure all elements are operating smoothly.

WHY INVOLVE SHUPRIOTI?

Our clients choose us because we associate with them to improve their business performance and results. We have the strong experience and in-depth knowledge of what we do in the either IT or media industries. We believe in strategic planning and design that appropriately communicates the right message for your business through either user-friendly web application or effective creative with visual and narrative representation. Our exposure to different businesses and industries gives us a strong advantage. We gather from our experiences and our diversity keeps robust IT development and media designs fresh and solutions unique.

We have been doing it since 2005 and we do it well. You can have a peace of mind knowing that you have a team of experts working for you as part of your team. If you are thinking about boosting your ROI, then you will need us on your side.

OUR STANDARDS

We, at Shuprioti Innovations, are always committed to meet our client's satisfaction through cost-effective quality end-product by maintaining the following standards intact.

- Creative Vision
- Innovative Shooting
- Artistic Editing
- Elegant Presentation
- Professional Quality

Without any compromise, we always strive to keep our standards maintained in all of our projects we deliver.

OUR UNIQUE APPROACH

From start to finish, we realize that every client has an unique personality and style.

To us, this means a vast departure from a "formulated" approach. We believe in a discreet and unobtrusive yet artistic, creative together with innovative approach much like what is known as "professionalism".

WORK FLOW

At Shuprioti Innovations Inc., we understand that many business owners and representatives are unaware of the processes involved in commissioning software & web development life cycle, IT integration & its framework, recording studio, media production and/or creative design work. And while each project is unique to our clients marketing needs, there are some common steps that take place that are consistent to all of our projects.

These are:

- Initial Meeting
- Quote/Contract
- Project Kick-off Meeting
- Initial Designs
- Feedback
- Refinement of Initial Designs
- Concept Approval
- Design Construction
- Vendor Coordination
- Final Project
- Ongoing Client Relationship

WHAT DOES SHUPRIOTI DO?

We are an innovative & creative professional group that understands your business by learning about your products and services, defining your target audience, studying the competition and

researching the industry. We apply this research throughout the entire design, development and production process to assure that our solutions meet your objectives. We always propose innovative, effective and creative solutions for our clients and construct a critical path that will define the process for how to get our client's needs met.

We, at Shuprioti Innovations, are confident that our IT professional team, production & creative team can meet the business and office automation as well as marketing and promotional needs of our client in a timely and cost-efficient manner.

We engage in the advancement of business and media solutions by thoroughly understanding your needs and studying your goals. It is our business to find out where you are now and what your visions of the future are. This leads us a better understanding of how to effectively design any IT integration, Systems development, Creative media & productions that will help you reach your future outlook of your business. Our goals are to help our clients to make your IT based infrastructure or media related promotions extremely EFFICIENT, SECURE and most importantly PROFITABLE.

WEB APPLICATION DEVELOPMENT & ITS DEPLOYMENT?

Internet opens a new horizon of immense opportunity for business, profession, trade or vocation. On the other hand, a web site is a digital face for an individual or an organization, and therefore must reflect your image and your values, whether it's a home page, an electronic brochure, a catalog or a system for conducting on-line business transaction. Web has brought the information highway within your grasp and you can be present virtually everywhere.

We will ensure that your presence in this cyber world cannot be missed. With our experience in this industry, we provide you with a unique innovative solution, specifically tailored to fill your needs. Our innovative and creative custom designed solutions can be a great weapon to spearhead your marketing strategy.

We provide the complete range of Internet and its related consultancy services. Our Internet Services include:

- Concept, Layout & Content Development
- Website Design and Development
- Dynamic Web Application Development
- Reliable and affordable Web Hosting
- eCommerce and eBusiness Technology Integration
- Search Engine Placement Consulting
- Web Multimedia
- Web Administration
- Domain Name Registration
- Web Streaming
- Interactive Flash Websites Design
- IIS and Apache Webserver deployment and configuration

Our flexible web hosting plans with affordable prices offer to fulfill the requirement of wide range of customers. We deliver high performance, reliability and fast connectivity by using the up to-date state-of-the-art technologies that possess ample power to deal with the demands. We are always striving to be an exceptional citizen in this virtual frontier.

WHO CAN SHUPRIOTI HELP?

We have worked with many clients in various industries. The diversity in our clientele is limitless. We believe that the best way to see our capabilities is through our work. With our complete network of IT professionals, client-server & web application developers, creative writers, producers, directors, editors, DP, cinematographers, sound & recording engineers, photographers, and set of graphics & concept designers, we focus on efficient robust IT solutions, dramatic cinematic productions, TV serials, teleplays, music CD & videos, documentaries, short films, independent & experimental films, as well as commercials, infomercials, corporate videos, and multimedia presentations.

We, at Shuprioti Innovations Inc., actively create and develop robust and unique ideas with superior design of either computer aided system integrations or effective media and film productions for the growing business within North America. We are continuously involved in the core design, develop and produce for some of the major North American ISP and TV, Bank, Insurance, Trading, Training Simulation, Automotive Manufacturing and Retail sectors.
